### World wide experts on wood boilers descend on Lee Moor

Toasty Heating in partnership with Econergy Ltd ([www.econergy.ltd.uk](http://www.econergy.ltd.uk)) were delighted to organise a KWB boiler servicing master class at Lee Moor at the end of July. The KWB TDS150 ("the boiler" to the rest of us) is one year old and has provided over 2400 hours of heat load. The boiler has done very well and Helmut came across from the manufacturing company to show the engineers from the Econergy partnership the top tips of servicing. The fact that Helmut had his trusty laptop meant that everything we did could be recorded and the efficiencies gained from the clean and service clearly seen. Nothing low tech about burning wood in the 21st century!

### Bread and Roses Bakery Ltd

Plans have been drawn up to launch a new bakery in September based at Lee Moor; this idea is based around servicing the growing market for local artisan food. The need is growing for a bakery in Northumberland that can produce the specialist products that create real value in and for the area. More news on this project in the next month or so!

### Jolly Green Showcase

Ignorance can be lethal to our planet and so Initial J Events ([www.initialj.co.uk](http://www.initialj.co.uk)) and Ian Brown have chosen to do something about that. As plans stand at the present time it will be a three day event in Newcastle for a homeowners and business people. It will educate and entertain. Email us for more details.

Hats, umbrellas, and smiles - essential gear for enjoying the British summer...
